RE: Recommendation on RCRA Part B Mixed Low Level Waste  
Cell Application

Dear Mr. DiSanza,

The Community Advisory Board for the Nevada Test Site Programs (CAB) has reviewed the RCRA Part B Mixed Low Level Waste Cell Application. This new cell will allow the Department of Energy (DOE) complex to continue to transport and safely dispose Mixed Low Level waste on DOE property after the current, interim waste cell at the Nevada Test Site ceases operation in December 2010.

The CAB believes this new cell is necessary to provide a safe, long-term solution to the disposal of DOE Mixed Low Level waste. The application itself is comprehensive and detailed.

The CAB unanimously supports the DOE's application to the State of Nevada Department of Environmental Protection for a mixed low level waste disposal cell.

Sincerely,

Walter F. Wegst, Chair  
Community Advisory Board  
for Nevada Test Site Programs
