

## ***Nevada Site Specific Advisory Board***

---

### **Greater Than Class C Committee**

**Atomic Testing Museum  
755 E. Flamingo Road, Las Vegas, NV  
3:30 p.m. – June 2, 2011**

### **Meeting Summary**

Members Present: Kathleen Bienenstein, Phil Klevorick (Liaison), Michael Voegele  
Members Absent: Robert Johnson  
U.S. Dept. of Energy (DOE): Kelly Snyder (DDFO)  
Facilitator: Denise Rupp, Navarro Research & Engineering, Inc.

A presentation was given regarding the Greater Than Class C (GTCC) Draft Environmental Impact Statement presentation at the May 11 Full Board meeting. As a result, the Committee focused on compiling all input received from the Board to develop a draft comment letter for Full Board consideration.

The draft comment letter focuses on the Nevada National Security Site with additional concerns regarding broader regulatory issues. After discussion, it was agreed to prepare two versions of the draft comment letter for the Board's review. The main comment letter will provide bullet points for each comment. The second version will include an appendix providing additional detail for each comment.

Transportation information for inclusion in the appendix to the comment letter was requested. Kelly Snyder will provide the Committee with details from the FY 2010 Transportation Report regarding routes and the number of shipments per route by June 6.

Chair Michael Voegele will not be available for the June 8 Full Board meeting. Member Kathy Bienenstein will present the draft comment letter.

The GTCC Committee meeting adjourned at 4:40 p.m.
