

Nevada Site Specific Advisory Board

Greater Than Class C Committee (GTCC)

**Sedan Conference Room, Nevada Site Office
232 Energy Way, Las Vegas, NV
5:00 p.m. – April 5, 2011**

Meeting Summary

Members Present: Kathleen Bienenstein, Robert Johnson, Michael Moore, Michael Voegele

U.S. Dept. of Energy (DOE): Frank DiSanza, Kelly Snyder (DDFO)

Facilitator: Denise Rupp, Navarro Research & Engineering, Inc.

After discussion, the majority of the committee proposed Member Michael Voegele serve as Chair of the Greater Than Class C (GTCC) Committee. Member Voegele accepted.

Public comment regarding the GTCC Draft Environmental Impact Statement (EIS) must be submitted by June 27, 2011. Given the time required to review the document and develop a Nevada Site Specific Advisory Board recommendation, it was suggested the Full Board meeting scheduled for July 13 be re-scheduled for June 8 to allow for adequate time to address the EIS and develop a recommendation before the June 27 deadline. Denise Rupp will request Board approval to change the July 13 Full Board meeting to June 8.

The Committee agreed to focus on aspects specific to Nevada, including: transportation to the Nevada National Security Site (NNSS), health effects to workers; biological effects to flora and fauna; and, differences between EIS addressing one site versus multiple sites. The Committee will review the document relative to these topics and bring their comments to the next meeting for discussion and development of an outline for presentation to the Full Board.

The next Committee meeting will be scheduled for the week of April 25. The GTCC Committee meeting adjourned at 6:30 p.m.
